EXPERIENCE IN THE AI SAFETY AND RESEARCH FIELD:

- I run independent AI research since 2025. My main area of interest is awareness and meta-knowledge in LLMs (evaluation awareness, situational awareness, user awareness).
- I write a blog on AI Safety and MechInterp.
- I'm an active participant of the Estonian AI Safety community; I help to organise events and raise awareness about the risks related to AI.

AI RESEARCH FELLOWHIPS:

2026 SPAR, Distilling the technical AI safety literature and co-authoring the AI Safety Atlas (mentor: Markov Grey)

WORK EXPERIENCE:

2026 – Senior Data Analyst, Bolt, Estonia
2021 – 2026 Data Analyst, Bolt, Estonia
2020 – 2021 Payments Operations Specialist, Bolt, Estonia
2019 – 2020 Customer Support Specialist, Bolt, Estonia

EDUCATION:

2018 – 2019 University of Tartu, PhD (unfinished)
2016 – 2018 University of Tartu, Estonian and Finno-Ugric Linguistics, MA, *cum laude*
2013 – 2016 University of Tartu, Estonian and Finno-Ugric Linguistics, BA, *cum laude*

ADDITIONAL TRAINING:

2026 BlueDot, Technical AI Safety Project
2026 BlueDot Technical AI Safety Course
2025 Machine Learning, Data Mining, and Artificial Intelligence (1-year microdegree program), Tallinn University of Technology

LANGUAGES:

English – full professional proficiency (C1)
Estonian – full professional proficiency (C1)
Russian – mother tongue

PERSONAL SKILLS AND EXPERIENCE:

- Data analysis, visualization and storytelling
- Advanced Python (pandas, numpy, matplotlib) and SQL
- ML/DL (scikit-learn, PyTorch, TensorFlow)
- Git, Databricks, Google Colab
- Claude Code, Claude Cowork
- Mechanistic Interpretability toolkits (TransformerLens, transformer-circuits, jlens)
